

Stuv 16/68 Cube in Van Ellen Sheryn Designed House

Customers aspirations: Freestanding stove with large output and designer appeal

Special requirements: Specially constructed raised hearth and log store.

Working with architects Van Ellen Sheryn we were able to create a wonderful centre piece to this superb modern home. The [Stuv 16/68 cube](#) heats the large expanse whilst sitting comfortably with the designer furnishings. Twin Wall flue has been used from the stove through the house to help keep the lines within the room as clean as possible. Van Ellen Sheryn are based in Newton Abbot but do a lot of work in Cornwall.
