

Contura 750

Customer Aspirations: Tall elegant free standing stove

Customer Requirements: No bends in the flue pipe, needs to have as clean lines as possible

The Contura 750 is a tall elegant stove with log storage underneath dispensing with the need to a log basket and keeping the fireplace area as clear of clutter as possible. The flue continues straight up through the vaulted ceiling and we finish it perfectly with a specially made decorative trim plate with the flue and trim plate painted to match the fire.
