

Charnwood C4 in a cosy stone fireplace

Customer Aspirations: A light coloured stove to complement the stone fireplace

Customer Requirements: Flue relining and new hearth

The Charnwood C4 is a compact little stove giving off about 4kw of heat. Charnwood also offer a range of paint colours for their stove of which this light cream is one of the more popular ones after black. The new hearth is actually more compact than the original so a new carpet is also required!
