

## Everhot 60

Our first model was an immediate success when it was launched 40 years ago. The Everhot 60 has an enduring and broad appeal which is especially popular for homes where space is at a premium. Being so compact you might expect some compromise, but nothing could be further from the truth. Yes it's small, but it's also perfectly formed, and it comes packed with features that put larger competitors to shame. With its two large ovens, cast iron hot and simmer plates and integral grill, the Everhot 60 has more capacity than many of its larger competitors.

## Everhot 60

Town or country, this is the perfect choice for the smaller kitchen since the 600mm width will fit a standard 600mm wide cooker space. Installation is incredibly straightforward since neither flue nor reinforced floor is needed and it simply plugs into a 13 amp socket, keeping any disruption to a minimum.

The cost of the Everhot 60 is from £5,485
