

Scan 1010

Choose your setup based on a large number of opportunities: wall hanging or placed on the floor, with different sizes of log compartments, with or without a plinth. The log compartment can be fitted with a protection glass for easier cleaning.

You can personalize your Scan 1010 to match your taste, needs and interior. This fireplace meets both aesthetic and practical needs.

You'll be charmed by the elegant simplicity of the front, underlined by the silk print on the glass and the smooth air controls. The glass handle is comfortable to touch, and with a simple push the door locks automatically.

Scan 1010 is developed to take 50 cm logs.

This woodburner already meets 2022 emissions regulations.
